

DISCIPLINE FOR EXCELLENT RESULTS

There are realms you cannot break into except you are disciplined.

A lot of champions have become ordinary because they lack discipline. Also, there are ordinary men who did great things because of their disciplined life.

You may be treated unjustly and unfairly, but it is not over yet if you have not heard the final say from God. God overrules and overturns, He knows how to redistribute things.

Discipline for Excellence in life.

- **Manage your time:** Keep to time and know there is time for everything (time to fight and time to restrain), move according to God's timing. Time lost cannot be recovered humanly speaking, but with God, your time is redeemable. Be conscious of your time, God's time is the best.

- **Have an accountability system:** Be accountable to authorities and higher persons. Some people have been living an independent life from an early stage, so they find it difficult to account to persons above them.
- **Learn to create boundaries:** Your boundary must be well defined and fortified. Know when your boundary is being encroached upon. Have constraints and restraints, know where to go and what to say.

- **Live within your means:** Don't borrow to impress, don't take loans on apps just to impress. Living life on wants will drain you, know what is necessary and what is not necessary. Cut your coat according to the available materials, not just your size. It is better to live below your means, don't create problems for yourself, stop impulsive buying and spending.
- **Always set your goals:** Where there are no goals, people behave like goats without direction.
- **Be like Joseph:** Let your life be shaped by good conscience. The opposite is Samson who allowed Delilah to cut off his destiny.
- **Learn to do things that guarantee your success:** stretch yourself beyond your comfort zone even if you don't like it. People with excellent spirit keep their routine.

Create a daily routine that sustains success.

1. Daily Prayer. Mark 1:35
2. Daily Meditation. Don't worry but meditate. Probe into your life to see areas for adjustment.
3. Capacity Building. Learn new things on a daily basis.
4. Daily study of the word of God
5. Touch lives. Live a life of impact.

- **Don't try to please everybody:** People crash early in life because they want to please people. They accept responsibilities they have no time to handle. Learn to say no without feeling guilty, learn to say no to things that are distractions to your life and destiny.

- **Know how to plan:** Don't live life riotously. Failure to plan is planning to fail.

For those in public or private service, plan your retirement early in life. Set goals for accomplishment and self-improvement. If you need to go to school, do. Learn a skill, improve on your worth and value system.

- **Fight procrastination:** See if you can do tomorrow's things today, but don't deliberately leave today's things for tomorrow. A little delay can alter things. It is not good to start a thing and not end it well.
- **Always understand that there are times in your life you need to prioritize.:** You cannot have exams and be playing instead of reading. You can't have a building project and be buying everything not related to the building. Prioritize your marriage and your family.
